

General Tour

The Program

This journey can be designed to suit a variety of needs: from class excursions to school camps, personal development for students to professional development for teachers. Students and teachers alike will have the opportunity to explore the wonders of Port Phillip Bay, in a fun and safe manner.

The Tour

The tour generally consists of three snorkels - all of which are lead by Qualified Snorkel Instructors. Students are introduced to the water at Pope's Eye, where they are taught safe snorkeling practices in a sheltered environment. Part of the Port Phillip Heads Marine National Park, Pope's Eye has become a very popular dive site due to its abundance in marine life. Once comfortable with their equipment, students are then introduced to a population of young male Australian Fur Seals, followed by a snorkel with a pod of Bottlenose Dolphins. Due to their wild nature a swim with the dolphins cannot be guaranteed, but in the event that we do not find them we will endeavour to have a snorkel elsewhere. While on the boat, students will be entertained with activities such as a ride on the boom-net, a duck spa, and if time permits - fishing. Generally the program runs for 3.5 hours, but this can easily be shortened according to your needs. All equipment is provided - including wetsuit, fins, mask and snorkel, with snacks and drinks served throughout the journey.

Feel it, Hear it, Taste it, Smell it, Sea it!
